Own **Your Tone.**

Music Business 2.0 — The Operating
System for Independent Artists

The Music Industry is **Broken** for Artists

\$3-4K

What 1 million Spotify streams pays (before splits)

0%

Fan data artists actually own from streaming platforms

80-85%

Of master recordings taken by major labels

50%+

Of publishing rights taken by publishers

Result: Artists are quitting. They can't make a living.

\$0.003

per stream to artist

The platforms controlling artist revenue

The Industry is Splitting in Two

Not between big and small. Between two fundamentally different approaches.

YESTERDAY'S MODEL

- ✗ Companies acting like Brands
- ✗ Fighting over SKUs
- ✗ Chasing Logos
- ✗ Running Ads
- ✗ Yelling at Audiences

TOMORROW'S MODEL

- ✓ Companies building Platforms
- ✓ Creating Ecosystems
- ✓ Building Belief Systems
- ✓ Owning Distribution
- ✓ Building Networks

The next category leaders won't win because of products.

They'll win because of ecosystems where media, data, distribution, and storytelling operate as one engine.

Boptone: The Autonomous Creator OS

A complete operating system for independent artists

Own Your Data

Know exactly who your fans are.
Export anytime. No platform
lock-in.

Own Your Masters

Keep 90% of streaming revenue.
Your recordings, your ownership.

Own Your Publishing

No forced deals for discovery.
Control your songwriting rights.

Own Your Relationships

Direct fan connections. No
algorithm gatekeeping your
audience.

Stop being a **content supplier**. Start being a **business owner**.

The Tone Economy

Revolutionary Fan-Artist Economics — Inspired by Costco Executive Membership

Fan Funnel: Marketing Infrastructure

The tools independent artists need but can't find anywhere else

Smart Links with Source Tracking

Every link tracks WHERE the click came from — TikTok, Instagram, playlist, or direct. Artists finally know which channels drive real fans.

Unified Fan Profiles

Connect email + phone + Spotify + social into **ONE fan identity**. See a fan's complete journey across all touchpoints.

Automatic Fan Scoring

Identify your **top 1% superfans** automatically. Score based on recency, frequency, purchases, and referrals.

Actionable Insights

"TikTok fans buy merch at 3x the rate of playlist fans" — Real data that drives real decisions.

Artists finally know WHERE their fans come from and WHO they are.

Kick In — Direct Artist Tipping

Fans support artists directly through their preferred payment method. No middleman.

SUPPORTED PAYMENT METHODS

	PayPal
	Venmo
	Zelle
	Cash App
	Apple Cash

BUILT-IN TAX COMPLIANCE

COUNTRY	COMPLIANCE
United States	1099-K threshold tracking (\$600+)
United Kingdom	Self-assessment reminders
European Union	VAT considerations
Canada	T4A threshold tracking
Australia	ABN requirements

Artists see exactly who tips them — building real fan relationships, not anonymous transactions.

OLD MODEL

- ✗ Platforms extract value from artists
- ✗ Fans are anonymous consumers
- ✗ Success = viral lottery
- ✗ Artists are content suppliers
- ✗ Data locked in black boxes

MUSIC BUSINESS 2.0

- ✓ Platforms share value with artists
- ✓ Fans are named investors
- ✓ Success = 1,000 true fans
- ✓ Artists are business owners
- ✓ Artists own all their data

Fans become investors. Artists become entrepreneurs.
Everyone wins together.
